- Reduces complicated doses into simple regimes
- Easy for carers to check to see if patients have taken their medication properly
- A visual reminder to take medication
- Tablets can't be mixed or spilt
- Tamper evident
- Suitable for all age groups

To learn more about Webster-pak® contact your local pharmacy.

Here are some true stories from Webster-pak® users demonstrating how Webster-pak® has been able to help them.

"My mother takes six different types of medication and it can be very confusing. With Webster-pak she knows whether she has taken her tablets. She doesn't want to be a burden on her family and she isn't! The Webster-pak has given her independence, safety and security."

Mr H. Newport, NSW

"I have a daughter with epilepsy. With our hectic lifestyle her medication has sometimes been missed. Our pharmacist suggested Webster-pak and the problem was solved. Now there are no missed doses, no fits and my daughter has integrated back into her school and social life."

Mrs W. Dubbo, NSW

"This is fantastic. I hope you have more luck than me with compliance, because this is the last opportunity for this lady to stay in her home."

Dr C. Brunswick, VIC

The **RIGHT** medicine, in the **RIGHT**
amount at the **RIGHT** time!

What is Webster-pak®?

Taking medication, even the most complicated and confusing dosage regimes is easy when a Webster-pak® is used. It tells you what medicine should be taken and when. Using a Webster-pak® can dramatically improve medication usage compliance, resulting in a healthier, happier and more independent patient. For carers, it can save you time, giving you more control and less worry!

Your pharmacist takes the doctor's prescriptions and tailors the Webster-pak® to meet the patient's individual requirements.

All the pills to be taken at a particular time are safely and securely sealed within blister compartments. These are individually labelled with their contents. For example, all the medication to be taken at breakfast on Monday is placed in one blister bubble, making checking the medication simple.

When it's time to take the medication, simply push the blister to release the contents through the foil backing. Nothing could be easier!

Save Time So You Can Care More!

One of the best things about Webster-pak® is it organises medication into a neat, safe and secure pack. This means you don't have a lot of messy bottles and packs on the kitchen table or in the bathroom cupboard to fiddle with. As all the medication is pre-organised, Webster-pak® will save you a lot of time because you won't have to prepare the medication yourself. You'll be able to spend more of the day caring and sharing good times with your loved one.

As a time saver, Webster-pak® is ideal for those carers who can't spend much time with the person they are looking after. As every minute is precious, you'll really appreciate the time saved when using Webster-pak®.

More Control & Less Stress

Webster-pak® organises medication in a simple, logical calendar format. You will feel more organised and in control knowing all the medicine is set out when it is needed. The stress of having to find the right pills at the right time will be a thing of the past! Also, at a glance you can check if the medicine is being taken properly.

Increased Independence & A Better Quality Of Life

Webster-pak® helps people take the right medication in the right amount at the right time. When a person takes their medicine properly you can actually see an improvement in their health. Not only will they have a better quality of life they'll also experience greater independence and be easier to look after as well.

Up To Date Medical Information Could Save Someone's Life

Picture this, an elderly woman out cold on her lounge room floor. In attendance are ambulance officers struggling to work out exactly what to do. A search of this lady's kitchen finds her Webster-pak® containing a full record of all the medication she is currently taking. Knowing this information means the ambulance officers are better able to deal with what maybe a life threatening situation. In this instance, Webster-pak® could have saved this lady's life!
