

Product List

Pendant Options

There are 3 standard types of pendants available: a neck pendant, brooch pendant and wrist pendant. Our standard pendants are waterproof and have a range of up to 100 metres from the receiver, depending on the layout of the home. An additional long range pendant is available on special order*. This pendant has a range of up to 300 meters and is water resistant, not water proof.

*additional costs apply

Long Range Pendant

If you spend a lot of time around the home, you may prefer the VitalCall long range pendant. It has a 300 metre range and is water resistant.

Universal Transmitter

The Universal Transmitter can be activated by any skin contact. Help can be requested by either touching the top surface or the specialised external switch or sensor.

Are You Up Function

The VitalCall Personal Response Unit has a built in motion sensor that can detect if no movement has taken place within a set time.
*This function is not ideal in cases where pets live in the home.

VitalCall Personal Response Unit (PRU)

The VitalCall Personal Response Unit is the ideal way to remain independent in your own home.

VitalCALL

PERSONAL EMERGENCY RESPONSE FOR YOU

What VitalCall can do for you

Situations such as a slip or fall around the house, or sudden chest pain can be potentially dangerous if help is not promptly requested.

VitalCall offers a range of products so you can live independently and confidently knowing that help is never far away, 24 hours a day, 7 days a week, 365 days a year.

VitalCall is the pioneer of personal emergency response services, with over 32 years experience in the Australian market.

VitalCall offers prompt, professional and friendly assistance during emergencies as well as offering modern state of the art equipment.

Maintain your independence, regardless of your living situation. You, your family and friends can rest assured in the service that VitalCall offers.

How VitalCall Works

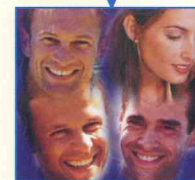

Activate the pendant

A 10 second alert will confirm your call to our Response Centre

A VitalCall Response Centre Operator will assist you and arrange assistance.* On request an Operator can continue to talk to you until help arrives which may be ambulance, friends or family.

The VitalCall Personal Response Unit

VitalCall provides you with peace of mind, a sense of independence and a commitment that in any emergency situation, help is only as far as a simple push of a button, without the need to use a telephone.

The VitalCall Personal Response Unit is small and unobtrusive. Installation requirements are minimal, the unit simply plugs into a telephone and power point.

The VitalCall Personal Response Unit offers:

- up to five programmable reminders to prompt taking medication or blood glucose testing
- temperature and time announcement
- are you up announcement
- you can make telephone calls for up to 48 hours when mains power is interrupted
- the ability for the user to answer incoming calls by pressing the telephone button

*If no voice contact is made, we will attempt to contact you via your telephone. If no contact is made, we will notify the Ambulance Service.
