Why Social Connections Matter

FEELING LONELY? YOU'RE NOT ALONE

Almost 1 in 3 Australians (32%) experience moderate loneliness, and more than 1 in 6 (17.5%) experience severe loneliness.

Loneliness can affect anyone – regardless of how many friends they have. It's not about the number of people around you, but about whether you feel truly connected and that you belong.

Loneliness and social isolation don't reflect weakness or personal failure – they simply show that we all need stronger, more meaningful connections.

WHY IT'S IMPORTANT

Loneliness and social isolation can have a serious impact on mental, emotional, and physical health. Research shows loneliness can increase the risk of early death by 26% – the same health risk as smoking 15 cigarettes a day.

They have also been linked to:

- Higher rates of chronic disease, depression, and anxiety
- Lower wellbeing and quality of life
- Increased risk of suicide and premature death
- Higher likelihood of dementia, high blood pressure, and weakened immune function
- Greater emotional distress and reduced feelings of wellness

HOW SOCIAL PROGRAMS HELP

Joining a Social Connections Program is a simple and enjoyable way to combat loneliness and build a sense of belonging. Being part of a community group:

- Fosters a sense of shared purpose and belonging
- Connects you to wider social supports
- Encourages meaningful relationships
- Increases engagement and joy through shared activities
- Helps reduce stress and promote overall wellbeing
